Faithful+Gould Solar Tower Delivery Role Firms

[EnviroMission Limited \(ASX: EVM, OTCQX: EVOMY\)](#) North America-based construction consulting and program management firm, Faithful+Gould, has been appointed to deliver international project and cost management services for Solar Tower delivery in La Paz Arizona.

Faithful+Gould were appointed by EnviroMission to provide local project management and integrated commercial services for Solar Tower delivery in July 2011; Faithful+Gould will now lead the Solar Tower project and cost management services team out of Phoenix.

Faithful+Gould's Phoenix office will provide consultant services from conceptual design through to construction and operation of a 200MW, grid connected, Solar Tower power station in Arizona.

Faithful+Gould Technical Director, Adrian Smith, said "Faithful+Gould's appointment at this early stage of development will provide Faithful+Gould with a high level of ownership and influence over early technical decisions associated with environmental and situational aspects of project delivery."

"Faithful+Gould has provided technical expertise and support to diverse projects in the energy sector over many years however the EnviroMission La Paz Solar Tower represents a new level of renewable energy innovation in the energy sector," Mr. Smith said.

"The appointment of Faithful+Gould to lead the project and cost management services team is a direct result of the outstanding expertise, commitment to innovation and a forward thinking business approach Faithful+Gould has brought to all interactions with EnviroMission," said Roger Davey, Executive Chairman and President of EnviroMission Limited.

"EnviroMission is pleased to have Faithful+Gould in our corner," Mr. Davey said.

EnviroMission's Solar Tower power station technology is being developed in La Paz to generate clean solar power under contract for sale to the Southern California Public Power Authority (SCPPA).

Project and cost management services will be delivered in line with EnviroMission's milestone timetable for the execution of the terms of EnviroMission's Power Purchase Agreement with SCPPA.

Faithful+Gould have been involved with the delivery of world renowned projects including the New York World Trade Center Redevelopment and Burj Al Arab in Dubai. Faithful+Gould is a construction consultant and member of the WS Atkins group of companies, www.atkinsglobal.com and is one the world's leading total solutions providers for the built environment. Faithful+Gould has been providing support services to the private and public sector across aviation, energy, transportation, food and beverage, government, health care, hospitality, infrastructure and pharmaceutical industries for more than 60 years. Headquartered in New York City, Faithful+Gould employs more than 400 professionals in nearly 20 cities throughout North America. For additional information, please visit: www.fgould.com.
