EnviroMission Subsidiary Incorporated in the US

EnviroMission's plans to commercialise Solar Tower technology in the United States have been formalised through the incorporation of a fully owned US subsidiary, EnviroMission (USA) Inc, to represent EnviroMission's commercialisation operations in the United States.

EnviroMission (USA) Inc. has been registered and incorporated in the US state of Delaware to provide EnviroMission with a wholly owned corporate entity in the United States to benefit from financial and resource efficiencies available from local business presence, commitment and expertise.

"This move will satisfy a multitude of factors inherent to successfully doing business in the US whilst also reinforcing EnviroMission's strategic intent for executive control of Solar Tower development in the US market" Mr Davey, EnviroMission's Chief Executive and Executive Chairman explained in support of the incorporation.

EnviroMission Limited remains the executive Solar Tower developer and will maintain an active involvement in the day to day management of EnviroMission (USA) Inc through the executive management function of the office of the Chief Executive.

Mr Roger Davey, EnviroMission's Chief Executive and Executive Chairman will also assume the role of Chief Executive, EnviroMission (USA) Inc, to give priority to accountability through seamless executive management and decision making.

Ends.
